COMPANY INTRODUCTION

In this day and age, the ceramic industry is prospering at the speed of light. The major driving force here is evolution and progress in the technological and innovation front and an interesting thing to note here is, India is not lagging behind in this regard. It is the 3rd largest consumer of ceramic tiles in the world.

This gracious growth rate has been observed due to the immense popularity of tiles as a decor element and that has happened because of the availability of unique and distinctive tiles. One of the key players driving this innovation is Solo Tile Studio. At Solo Tile Studio, growth is fuelled by dreams and desires. For us, our clients are not profit-giving entities, they are our growth-causing partners.

We always aim at serving class apart products and providing satisfying services that can work as wholesome tiling solutions. To do so effectively, we rely upon our highly skilled and experienced working brigade that works day in and day out under the constant guidance of prudent visionaries. Our major strengths include the in-house R&D department that allows us to come up with innovative and reliable solutions. To put those solutions into practice, we have got on board the latest technology and machinery that we source from Italy and Spain. These parameters have helped us gain a massive growth rate since, in the year 2006, we commenced with a production capacity of 5000 sq. meters per day, and today, it has reached 55,000 sq. meters per day. We also run a Sanitary-Ware plant with a total production capacity of 25,000 pieces per month.

All in all, with an extensive range of High Gloss Glazed Vitrified Tiles, Glazed Vitrified Tiles, Glazed Outdoor Vitrified Tiles, Full Body Vitrified Tiles, Double Charge Vitrified Tiles, Glazed Ceramic Wall Tiles, and an exclusive Sanitaryware collection, we are en route to fulfilling our own dream.
